

Warranty Statement

Precision Measurement Engineering, Inc. warrants that the T-Chain shall be free of defects in workmanship and materials, under normal use, for a period of 1 year from the date of shipment. This warranty is made only to the original purchaser. In the event a T-Chain covered by this warranty fails to operate according to our published specifications, return it pre-paid to Precision Measurement Engineering. Before shipping the product back to PME, please complete the PME RMA form to receive your RMA number, <http://www.pme.com/HTML%20Docs/RMAform.html>. PME will repair the unit at no charge, and bear the return costs. Carefully pack all components, as the customer is responsible for any freight damage.

This warranty does not apply to services or consumable/ expendable items (batteries, fuses, ropes, etc) required for general maintenance. Equipment manufactured by other companies are warranted only to the limit of the warranties provided by their original manufacturers.

PME makes no warranties, either expressed or implied, that the sensors will be operable after they are exposed to adverse environmental conditions, such as bio-fouling, oil fouling, freezing temperature or others.

This warranty is void, in our opinion, if the T-Chain has been damaged by accident, mishandled, altered, or repaired by the customer, where such treatment has affected its performance or reliability. In the event of such treatment by the customer, costs for repair plus two-way freight costs (no COD shipments will be accepted) will be borne by the customer. In such cases an estimate will be submitted for approval before repair work is started.
